

The Click & Plug System

Application

Devidry™ Plug Kit is what makes Devidry™ to the Click & Plug System. In this way you get the fastest possible installation.

Simply Click the mats together, mount the thermostat and the current device on the wall and Plug the system into the socket.

At the same time Devidry™ Plug Kit is the certified control system for removable floorings like carpets.

Devidry™ Plug Kit

Devidry™ Plug Kit is the certified control kit for removable floorings like carpets, but also wooden floors and laminates.

Beside a floor thermostat, the kit includes a dedicated current device which

- supplies 24V to the control
- has a dedicated 10A fuse
- is a dedicated safety circuit which breaks in less than 0,02s in case of failure

In this way the installation is certified according to IEC 60335-2-106 for removable floorings.

Product Features

10A fuse built-in
Safety circuit breaks <0,02 s
Easy installation
